TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

CHECK SHEET

Sheets 1 through 43 inclusive of this tariff are effective as of the date shown at the bottom of the respective sheet(s). Original and revised sheets as named below comprise all changes from the original tariff and are currently in effect as of the date on the bottom of this sheet.

5. INTRALATA TOLL PRESUBSCRIPTION

5.1 General

IntraLATA toll presubscription is a procedure whereby an end user may select and designate an IntraLATA Toll Provider (“ITP”) to access IntraLATA toll calls without dialing an access code. The end user may designate an ITP for IntraLATA toll, a different carrier for InterLATA toll, or the same carrier for both. This ITP is referred to as the end user preferred IntraLATA toll provider.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IntraLATA toll provider, only one access code of that carrier may be incorporated into the switching system of the Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier’s other service(s).

An ITP must use Feature Group D (“FGD”) Switched Access Service to qualify as an IntraLATA toll provider. All ITPs must submit a Letter of Intent (“LOI”) to the Company at least twenty days prior to the IntraLATA toll-presubscription-conversion date or, if later, forty-five days prior to the date on which the carrier proposed to begin participating in IntraLATA toll presubscription.

Selection of an ITP by an end user is subject to the terms and conditions in Section 5.2.

5. INTRALATA TOLL PRESUBSCRIPTION (Cont'd)**5.2 Presubscription Charge Application****5.2.1 Initial Free Presubscription Choice for New Users**

New end users (including an existing customer who orders an additional line) who subscribe to service will be asked to select a primary ITP when they place an order for Company Exchange Service. If a customer cannot decide upon an IntraLATA toll carrier at the time, the customer will have thirty days following completion of the service request to make an IntraLATA PIC choice without charge. In the interim, the customer will be assigned a "No-PIC" and will have to dial an access code to make IntraLATA toll calls. The free selection period available to new end users is the period within thirty days of installation of the new service.

Initial free selections available to new end user are:

1. Designating an ITP as their primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
2. Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all ITPs. This choice can be made by directly contacting the Company.
3. Following a new end user's or Pay Telephone Service Provider's free selections, any change made more than 30-days after presubscription is implemented is subject to a nonrecurring charge, as set forth in 5.7.1 following.

5.2.2 Charge for IntraLATA Toll Presubscription

After expiration of the initial free presubscription choice period for new customers, as specified above, or existing customers, the end user or ITP will be assessed an IntraLATA Toll presubscription charge as specified in 5.7.1.

5. INTRALATA TOLL PRESUBSCRIPTION (Cont'd)**5.2 Presubscription Charge Application (Cont'd)****5.2.3 Cancellation of IntraLATA Toll Presubscription by an ITP**

If an ITP elects to discontinue Feature Group D service after implementation of the IntraLATA toll presubscription option, the ITP is obligated to contact, in writing, all end users who have selected the canceling ITP as their preferred IntraLATA toll provider. The ITP must inform the end users that it is canceling its Feature Group D service, request that the end user select a new ITP and state that the canceling ITP will pay the PIC change charge. The ITP must provide written notification to COMPANY that this activity has taken place.

**5.3 End User/Pay Telephone Service Provider Charge Discrepancy
("Anti-Slamming Measure")****5.3.1 When a discrepancy is determined regarding an end user's designation of a preferred IntraLATA toll carrier, the following applies depending upon the situation described:**

A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Company.

When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date determines customer choice.

5. INTRALATA TOLL PRESUBSCRIPTION (Cont'd)

5.3 End User/Pay Telephone Service Provider Charge Discrepancy ("Anti-Slamming Measure") (Cont'd)

5.3.2 Verification of Orders for Telemarketing

No ITP shall submit to the Company a PIC change order generated by outbound telemarketing unless, and until, the order has first been conformed in accordance with the following procedures:

5.3.2.1 The ITP has obtained the customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms:

5.3.2.1.A The customer's billing name and address and each telephone number to be covered by the PIC change order;

5.3.2.1.B The decision to change the PIC to the ITP; and

5.3.2.1.C The customer's understanding of the PIC change fee;
or

5.3.2.2 The ITP has obtained the customer's electronic authorization, placed from the telephone number(s) on which the PIC is to be changed, to submit the order that confirms the information described in 5.3.2.1 preceding to confirm the authorization; or

5.3.2.3 An appropriately qualified and independent third party operating in a location physically separate from the outbound telemarketing representative has obtained the customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification date (e.g., the customer's date of birth or social security number).

5. INTRALATA TOLL PRESUBSCRIPTION (Cont'd)

5.3 End User/Pay Telephone Service Provider Charge Discrepancy
("Anti-Slamming Measure") (Cont'd)

5.3.3 The Company will follow the Federal Communications Commission's and the Maryland Public Service Commission's regulations regarding slamming. The Company will not impose a penalty or charge for unauthorized IntraLATA toll provider changes.

5.3.4 The customer owns the exclusive right to select the PIC of their choice, and may choose to migrate from one carrier to another at any time. There is no reason a carrier may refuse to release a customer who has stated their intent to select a different carrier.

5.4 Informational Notice to Customers

The Company will provide written notification to customers of their IntraLATA presubscription options and rights within 30 days of subscribing for service.
