## Magellan Hill Ranked 6<sup>th</sup> Among Philadelphia's 100 Fastest Growing Companies

**HADDONFIELD, NJ** – Magellan Hill Technologies, a telecommunications management and consulting company located in Haddonfield, NJ, was ranked 6<sup>th</sup> on the 2010 Philadelphia 100<sup>®</sup> list of the fastest-growing businesses in the Philadelphia region - 1<sup>st</sup> among telecommunications companies. On Tuesday, October 12<sup>th</sup>, the 22<sup>nd</sup> annual Philadelphia 100<sup>®</sup> Awards dinner was held at the University of Pennsylvania's Annenberg Center for the Performing Arts. Representing Magellan Hill was CEO Brad Bono, along with members of his executive, sales and operations teams.

Master of Ceremonies for the evening was retired NFL quarterback, local businessman and ESPN analyst Ron Jaworski. Chief executives from each of the top-ten companies received awards on stage from Jaworski personally. This was particularly rewarding for Bono, a long time friend of Jaworski's. "It's an exceptional honor to be in the company of some of the people in this room," said Bono of the event. "In a time when many businesses are struggling, it's great to see so many companies in a range of industries making it work."

Magellan Hill founder and CEO Brad Bono accepts the 2010 Philadelphia 100<sup>®</sup> Award from Ron Jaworski.

According to the data compiled by the Philadelphia 100<sup>®</sup>, a 613% growth rate between 2007 and 2009 placed Magellan Hill number six on the list. "I believe our success as a young company is largely a result of personalized service by a team of professionals who truly care about our customers. Magellan Hill was founded with the goal of becoming a company that our customers, our team and the community all appreciate being associated with," Bono said.

The Philadelphia 100<sup>®</sup> is an annual project conducted by the Entrepreneur's Forum of Greater Philadelphia, Philadelphia Business Journal, and Wharton Small Business Development Center. The Philadelphia 100<sup>®</sup> is a merit based program. Of more than 250 companies nominated annually, only those that are among the fastest growing, privately held companies are awarded the Philadelphia 100<sup>®</sup> designation. The integrity of the process and the resulting list makes the Philadelphia 100<sup>®</sup> one of the most sought awards in the region.

Magellan Hill Technologies is a Telecommunications Management firm, specializing in assisting business customers of all sizes with the analysis, consolidation and cost reduction of their voice and data services. Magellan maintains high-level partnerships with all of the major telecom carriers, allowing them to custom-tailor solutions to each customer. This makes their telecom services as cost-efficient and reliable as possible. The company was founded in early 2006 by Brad Bono, former co-founder of PAETEC Communications, now a \$1.4 billion telecommunications company.
